MOUNTAIN MULES

TOO SMALL

Maurice J. Farris, Jr., of Dan-
ville, passed thru Stanford last
week en route to London
where he went in an effort to buy
some mules for the English army.
He was unable to secure any,
however, on account of the light-
ness of the mountain hybrid. The
specifications of the contractors
who are buying for foreign gov-
ernments calls for animals which
weighed at least 1,000 pounds.
Out of about 200 mules which
were inspected and weighed by
Mr. Farris at London last Satur-
day, only about six came up to the
required weight, and the owners
of these would consider no price
short of about \$200. each for them
which is so much in excess of the
amount which the buyers can af-
ford to pay for mules, that they
could not be considered. Mr.
Farris says that he found a fine
lot of light, wiry mules on hand
but was unable to handle them.
Mr. Farris and B. G. Fox, of
Danville, are commissioned to buy
mules in this part of Kentucky for
C. A. Wright, of Columbia,
Tenn., who is an agent for Guy-
ton & Herrington, a firm that
handles stock all over the country
and has the sole contract to buy
mules and horses in America for
the English and French Govern-
ments. During the past few
months, Messrs. Farris and Fox
have bought something like \$20,
000 worth of mules in this part
of the country and have put the
much needed money in circulation
among the farmers.

WHY FOR THE BOND ISSUE

Rovy Mullins, Dudley.—"I am
sending herein a petition with
names to swell the number who
signed for call of election for bond
issue. I hope it will carry and
that our people will be lifted out
of the mud."

J. W. Lee, Johnetta.—I send
list of names on petition for aid-
ing one of Rockcastles greatest
and most important movements of
a century. I have no fears but
you will have sufficient number
and names to spare in calling for
proposed election. I was against
the bond issue before. Now with
State aid I am for it and hope
every citizen in our county will be
likewise."

R. C. Cox, the barber, says if he
should vote against the bond issue
he hopes some one will take his
tobacco away, give him a kick and
throw him into the creek.

J. G. Fain, Pine Hill.—I signed
the petition. Would sign a hun-
dred if it would aid the cause.

J. Baker, Orlando.—I don't like
to be coupled up the biggest part
of the winter.

S. B. Price, Pine Hill.—Mud.
—T. R. Mullins, Withers.—I am
for the bond issue for many rea-
sons; the biggest and best reason
is good roads.

Jesse Cotton, Oakley.—The issue
of bonds will start things to mov-
ing right now. Work for every
one that wants to work. Money
floating around and everybody
stands a show of getting some of
it.

place us in shape to build more
and more roads.

D. B. Langford, Orlando.—Im-
proved roads are the peoples
greatest need in working for the
uplift in education and religion.

Thomas Owens, Johnetta.—In
Lee County, Virginia, bordering
on Harlan County, Kentucky,
where good roads were recently
constructed, lands advanced 75
per cent in value. The proposed
improved highways for Rockcastle
would do as much or more for us.

J. H. Mullins, Burr.—I have
met some people who said they
didn't want their land value to in-
crease, as it would raise their
taxes. This is true but the added
conveniences and advantages to
accrue from good roads would
place them in position to earn
twenty times more than the tax
raise would amount to, besides if
they wanted to move some time
they would get better prices for
the land.

George R. Reams, Dudley.—The
saving in one week's hauling over
improved roads would be sufficient
to pay the taxes on the biggest
farm in Rockcastle.

C. T. Sigmant, Hiatt.—It would
even be a big help to the man who
has no horse but is obliged to walk
over the roads.

R. G. Dodd, Ottawa.—The U. S.
Agricultural Department reports
that in Spottsylvania County, Vir-
ginia, where they made 41 miles
of improved road, land that had
been selling at \$20 per acre is
now bringing \$44. per acre. With
an array of many such instances
in other counties in various states
and knowing the immense value
of improved roads bring to us how
could I vote against a bond issue
to build them? My vote goes for
them and hope my neighbors and
the whole voting population will
do the same.

W. H. Livesay, near Hiatt.—
Land values in the neighborhood
of Petersburg, Virginia, advanced
from \$15. per acre to \$30. after
the roads were improved.
Floyd Gentry, Hiatt.—We have

the opportunity of a life time to
get out of the mud. Will we do
it?

W. S. Cromer, Hansford.—It's
the best proposition ever offered
our people to get improved roads
and we believe when the matter is
fully understood that the bond is-
sue will receive all the needed
votes to carry it.

Mitchell Owens, Mareburg.—
One farmer along one of the pro-
posed routes, who owns a team
and a \$500. farm offered, in way
of subscription, to furnish his team
and himself as driver for two
weeks in construction work.
Reckoning his team at \$3. a day
would amount to \$42. and bond
tax at 20 cents on the \$100; this
\$42. would pay the tax for 42
years, but bonds, will have been
paid off many many years before
that time expires.

Robert Nixon, Wildie.—By 1929
our county valuation would be six
million dollars or more instead of
three million. I am for bond is-
sue.

O. P. Bostic, Renfro.—Some of
my neighbors have tried to advise
me against bond issue. I find
said neighbors have not even read
the road law and don't know what
they are talking about. I am not
from Missouri but from Virginia
where I have already been
'show n' the immense value of
improved roads. Let us vote for
the bond issue and ask our neigh-
bors to do the same.

Villa has accomplished his aim, when he proclaimed himself president of Mexico and took charge of the nation's affairs. But after all, as bad as he is, he is 40 worse than the rest, and for the welfare of Mexico it is probably better that Villa is now in charge.

Those holding appointments under Auditor H. M. Bosworth, are certainly faithful to their charge as they travel over the state—electioneering for Henry regardless of business.

BOND ISSUE BEST

Is the Opinion of President of the Southern Appalachian Good Roads Ass'n.

Chapel Hill, N. C., Feb. 2-15—Mr. Gus Staverson, Mt. Vernon, Ky.

Dear Sir:

I understand that there is a campaign on in your county for a bond issue for building good roads.

I am especially interested in the promotion of road building throughout the Southern Appalachian region in connection with my affiliation with the Southern Appalachian Good Roads Association, and wish to say a word of encouragement to you in connection with this bond issue.

Some of the reasons why I believe a county should vote bonds for road building are:

First. The issuance of bonds by a county would mean but a small increase in taxes which, as the years go by, will be much more than counterbalanced by the increased net income which the farmers in the county will be able to make, due to improved roads.

Second. It makes available sufficient funds to render possible the accomplishment of the construction of a definite number of miles of roads within a definite time, while to obtain the same number of miles within the same time by a direct tax is practically prohibitory on account of the high rate of tax which it would require.

There is no valid reason why a county should not utilize its credit and thus obtain the benefit of an asset which every successful man desires as a prerequisite to his success and advancement.

There ought to be no fear of bonds, for business is based on credit, and in many States, I should say, the volume of business is probably carried on upon less than twenty per cent. of cash investment.

The policy of "pay as you go" has been preached and used to the detriment of many States, and it will be found that many, if not the majority of those who preach this doctrine, would and do operate on borrowed capital when they can manage it.

The complaint that we must consider posterity is an argument which should receive little or no consideration.

Are we not posterity ourselves, and is it not a fair and equitable arrangement that future generations should pay for a portion of the improvements on our public roads, as they will derive just as great benefit from them as we do?

I trust that your county will be able to not only provide the means for constructing your link of the historic Boone Way, but that you will be able to provide the means for building a system of roads for your entire county, which will mean so much toward its future advancement.

If I can be of any service to you call upon me.

With best wishes, I am,
Sincerely yours,
JOSEPH HADE PRATT,
President-Treasurer.

CHERRY SEEKS GOVERNORSHIP

Educator to Be Candidate at Democratic Primaries.

Worked His Way Through School and After Years of Struggling With Unsympathetic World Was Made Head of Western Kentucky State Normal School.

H. H. Cherry, the noted educator of Bowling Green, has announced his candidacy for governor of Kentucky, subject to the Democratic primary Aug. 7, 1915.

He was born in a log cabin, among the sand hills of northwestern Warren county, Kentucky, forty-eight years ago. He worked on his father's little rice farm and attended school from six to eight weeks each year and learned by the time he was twenty-one years of age to read, write and cipher a little. When he became of age his father gave him the privilege of cutting down some hickory trees and selling them for firewood. He began to work on his own account, and after seven months of hard labor he managed to accumulate \$72. This was his first real business experience. With the \$72 he started on foot through snow twelve inches deep to his native city to enter school. For more than five years he worked his way through school and during much of the time did self-education. He cooked his meals on a one-eyed

one of the greatest educational institutions of the south.

Dr. Cherry has been an active worker in all endeavors looking toward the development of a "Greater Kentucky." This has been his aim in the past and will be in the future. He was president of the Kentucky Educational Association, a member of the educational campaign commission of 1905, a member of the board of directors of the Southern Educational association, chairman of the statewide farmers' chautauque organization, and a member of many other progressive educational and industrial organizations organized in the interest of a greater state.

Owing to the many exacting executive duties Dr. Cherry has been unable to find time to do any teaching during the past twelve years. Practically all his life has been devoted to an executive work. It is a source of great pride to him that he has made a business success in the county in which he was born and reared without a single blot on his record, and the people all love and respect him. He is perfectly willing for the people of his native county to say whether he is qualified for the high honor he seeks.

Dr. Cherry in making his formal announcement said in part: "I am elected governor. I shall be free from all engagements and not an appointee or slave of any faction, organization or machine. I would rather preserve my integrity, die a pauper, and go down in defeat than make a single promise that would cripple public efficiency or destroy my confidence while in office. My motive for entering this race is higher than the holding of office, the drawing of a salary or being a dummy governor. If I am elected I shall, on entering office, be free as the mountain air; free to fight for the rights of the people and free to take the executive initiative in the work of transacting public business. I shall do my utmost to make the campaign, which I shall earnestly prosecute, a patriotic cause, a vision of a greater Kentucky; and I shall try to appeal to the intelligence and higher motives of men rather than to their prejudice and ignorance."

"England is about to ship to France a large number of troops and a great quantity of war material. We shall act against these transports with all the military means at our disposal. Peaceful shipping is urgently warned against approaching the northwest coasts of France, owing to the serious danger, as they may be confused with ships serving warlike purposes. Ships to North sea ports are recommended to take the route north of Scotland."

The recent assaults of the German army are characterized in the Russian official statement as "ferocious and distinguished by great tenacity" on the entire Russian front in a new drive toward Warsaw.

The fighting reached its fiercest along the whole line last Saturday and is now continuing in the same pitch. The Russians admit that part of the assault on the Russian line, particularly in the highly important territory in the region of Sochaczew and Borkow, on the road to Warsaw, has been successful, and that the Germans drove them back to the second line of trenches, but the Russians deprecate the value of any gains made by their enemy.

On the other hand the Russians claim gains on the lower Vistula, and say that they were able to repulse attacks of the fiercest nature at other points.

Military readers of the communication of the war office say that they believe that the Germans feel that they have marked time long enough and that if Warsaw is to be won they must arrive on all their power, regardless of the cost.

BREAD RIOTERS INJURED

Unemployed in Italian Cities Attempt Raid on Bakeries.

Rome, Feb. 3.—Bread riots have occurred at Sorso, Sardinia, where the unemployed attempted a raid on the bakeries. Several of the rioters were injured. The agitation continues in spite of the free distribution of bread by the municipality.

Efforts are being made by the authorities of Florence and other cities to lower the cost of bread. The municipalities are distributing flour with the result that the situation is improving. The agitation has subsided in these cities since the police arrested and expelled the agents who, besides provoking the agitation, have been engaged in the exportation of contraband wheat.

N. Y. BIRTH RATE IS HEAVY

Report Shows Increase in Births and Marriage Rate.

New York, Feb. 3.—Health Commissioner Goldwater made his first report to Mayor Mitchell on his work as the city's chief health official. In his summary Dr. Goldwater enumerates 121 points in which he believes the health department has progressed during his year at its head.

In the list of improvements for which Dr. Goldwater considers credit should be given to his administration he mentions the fact that there was an increase of 5,513 births over 1913 and 1,784 more marriages last year than during the year preceding. The lowest infant death rate in the history of the city was recorded.

Fires From Gasoline. Fort Wayne, Ind., Feb. 3.—Three persons, Mrs. W. D. Bevelhimer and daughter, Mrs. Annapurna, and her husband, were seriously burned by a gasoline explosion at their home in South Harrison street. The daughter was cleaning a skirt with gasoline near a kitchen stove. The loss on the house was \$1,000 by fire. Fire resulting from a gasoline explosion caused \$2,000 damage to the cold storage plant of Sherman White & Co.

GERMANS RENEW WARSAW ATTACK

Plan to Attack British Transports in Channel.

RUSSIANS CLAIMING GAINS

German Assaults All Along the Russian Lines Ferocious and Tenacious, Is Admitted by the Russians—Also Admit Some Losses.

Paris, Feb. 3.—The official communication states: "From the sea to the Lys the German artillery made an unsuccessful attempt to silence ours. In the sector of Arras there was cannonading all through the night of Feb. 1-2, but no infantry attack was delivered. Near Soissons we damaged several of the enemy's batteries, and at St. Paul we repulsed an attack by a small body of infantry."

Dispatches from Berlin quote the Reichsan Zeiger as publishing the following statement from the German admiralty: "England is about to ship to France a large number of troops and a great quantity of war material. We shall act against these transports with all the military means at our disposal. Peaceful shipping is urgently warned against approaching the northwest coasts of France, owing to the serious danger, as they may be confused with ships serving warlike purposes. IMMIGRATION BILL ISSUE CLOSE

Its Passage Depends Upon House Attendance.

FATE OF BILL DOUBTFUL

Uncertainty of Members Being Present When Vote Is Taken Causes Opposing Factions to Make No Claims as to the Outcome.

Washington, Feb. 3.—The success of the immigration bill vetoed by President Wilson, depends in large measure on the number of members in attendance when the bill is called up in the house on Thursday. A careful canvass made by those who would pass the bill over the president's veto and those who would defeat the legislation, shows that the issue will be decided by a very narrow margin.

The house at present is made up of 425 members. Of this number 277 are on record in favor of the restrictive immigration legislation proposed. One hundred and thirty-nine members are on record in opposition. The votes of nine members are in doubt, these members having failed to answer to their names on the two roll calls that marked the passage of the bill in the house. Of the nine it is understood that five will vote in the negative. This would give 232 votes in favor of passing the bill over the veto, just four less than the required two-thirds.

Owing to the uncertainty as to the number of members who will be present on Thursday, opposing factions are unable to say what will be the outcome. With a full house in attendance and all members except the nine who have not voted standing by their records, the veto would be sustained, as the nine doubtful ones have been consulted and five will vote to uphold the president. Therefore, according to the leaders, the side will win which is the more successful in inducing its partisans to return and vote. Present indications are that the bill will fail of repassage by a small vote.

Washington, Feb. 3.—The administration ship purchase bill is still in a tangle, with the chances against its being put on the statute books at this session of congress.

The administration leaders in the senate in maneuvering for votes were seeking to appease the seven Democratic insurgents by conceding an amendment which would limit the government's participation in the shipping plan to two years, thus making the government ownership scheme purely a temporary measure. While the senate leaders were proceeding along this line, however, President Wilson was after the votes of Republican Progressives, who demanded that the government should go into the shipping business on a permanent basis.

If the ship purchase bill is recommended to the senate committee on commerce it probably will be with instructions to report it back to the senate within two days.

Washington, Feb. 3.—If the senate concurs in an amendment incorporated in the naval bill by the house, the "plucking board," an agency created by law for the elimination of officers in order to assure a steady line of promotions in the naval service, will go out of business on July 1.

Two important items that were ruled out by points of order were the proposal to increase the rank and pay of warrant officers, and an appropriation of \$400,000 for the construction of marine barracks at Mare Island and Norfolk. The million dollar appropriation for air craft for the navy was reduced to \$500,000. An amendment proposing to add 5,000 enlisted men to the navy was defeated.

North Pole Dispute Probe Delayed. Washington, Feb. 3.—Owing to the short time that will elapse between now and the adjournment of congress the house committee on education has decided to postpone action on the Smith resolution, which provides for an inquiry to determine whether Dr. Cook or Admiral Peary discovered the north pole. The commission is anxious to embark on this scientific work, feeling confident of its ability to establish the truth to the satisfaction of the world. The committee on education is made up of fifteen members.

Voters Rockcastle County, Vs { Petition

Order to Call an election on Bond Issue.

It appearing that a petition signed by more than one hundred and fifty legal voters, who are free holders of Rockcastle county, was filed in the office of the Clerk of the Rockcastle County Court, and with the Judge thereof, on the 25th day of January 1915 asking that an election be held in said county, March 27, 1915, for the purpose of submitting to the legal voters said county the question of whether the Fiscal Court of said county, shall issue and sell the bonds of said county in an amount not to exceed \$100,000. Said Bonds to be sold and the proceeds arising therefrom to be used in building and constructing turnpikes in Rockcastle County and through territory hereinafter designated by the said Fiscal court and State Road Department and the Court being sufficiently advised, now Orders that said election be held at the time and for purpose stated in said petition and that Cam Mullins, Sheriff, of Rockcastle County, be and he is hereby directed to cause a poll to be opened and an election to be held in the County of Rockcastle. On the 27th day of March 1915. And he will cause the polls be opened in each and all of the voting precincts in said county; and he is directed to advertise said election and the object thereof at least 30 days next before the day thereof in some newspaper having the largest circulation in the county also by printed Landbills posted up at not less than four public places in each voting precinct in the County and at the Court house door. All legal voters of said County shall be privileged to vote at said election.

Can any man be considered a good citizen who willfully misrepresents the road bond issue or any other issue?

WANTED:—The man who has my Level and Jack Plane to bring them home. No questions asked. 25-38 J. B. MCKENZIE.

How any business man can always reconcile the narrowness of his make-up to always be ready to fight every improvement that is presented, is a problem. Just watch it, and see if that fellow is not always howling hard times, and as a usual thing times are hard for him but it is because he makes them so. It is the man.

It is a matter of public record, for any one to see who wants to go to the records and look, that in the last twenty years Rockcastle county has spent \$120,000.00 on the public roads for the county. Vote the bond issue, build the pikes and in twenty years it will only take a little over one-half that amount to pay all indebtedness. If there be doubting Thomases go to the records and investigate.

Better clothes for less money at Fish's.

It costs 11 cents a second to talk to San Francisco from New York over the telephone, or \$20.70 for a three minute conversation. Now who says talk is cheap?

The Men's Bible class of the Christian Church is to build and equip a room, as the meeting place for all sessions of the class, which will be quite an asset to the Sunday School.

Squire Logan Arnold, of Walnut Grove section has bought a lot in the Sparks & Davis addition, will build and move to town to take advantage of our splendid schools.

The taxable property of Rockcastle for 1915 is \$1,764,948. The Railroads and Corporations is \$1,309,057. Take these figures and see whether or not it is a business proposition for the people of Rockcastle to take advantage of the road issue.

Mr. S. H. Martin, one of the safe, conservative men of the county says the bond issue is the only way to get roads under the present law, and he says that his advice to all, rich and poor, young and old, is to get behind the issue and help make it a go, because it will be a help to all and be an injury to no man.

One of the saddest deaths of the new year was that of Emanuel Bullen, second son of J. Chalton Bullen, near Wildie last Tuesday. Just three weeks ago he was married to Miss Arlie Dotson near Wildie, and at that time was suffering from a deep cold which developed fever and took his life. His remains were laid to rest in the Saffold Cane burying ground Wednesday.

Old Cull went to Conway Monday. He said when he reached Round Stone he saw a chicken peddler whipping the ground with his black snake whip. Cull asked, 'what are you whipping the ground for?' The peddler replied 'watch close,' and Cull said he did and in a short time he saw a wagon and team come out of the mud.

Ground hog day falls on February 2nd. This is the goods. The Standard dictionary, lately issued and John Watson Brown declare such to be the fact, and those people who have lost sleep over the matter as to what day of the month ground hog day actually is, can now rest in peace and proceed in the discharge of their daily avocations under the assurance that this vexatious question is forever settled beyond all possible doubt and everyone can now enter upon the bond issue proposition with courage and hopefulness of a successful outcome.

The turnpikes will be free for everyone to travel over, notwithstanding some foolish enemy to progress started nonsensical report that toll would be charged for even footmen to pass over and along the proposed improved roads. Let everyone tell the truth at all times and we have no fear as to the outcome.

Post yourself by reading the new road law before trying to teach others.

One of the big fighters against good roads acknowledged, a few days since, that he had never read the new road law, yet this same man sells himself up as a teacher to inform others as to how they should vote on the question.

Wednesday evening was the annual election of officers and directors of the Mt. Vernon Power Co. The old board and officers were retained as follows: U. G. Baker, President, Jonas McKenzie, Vice Pres., James Maret, Secretary, and F. L. Thompson, Treasurer. Directors, U. G. Baker, C. C. Williams, C. D. Sutton, Judge Bethurum and E. S. Albright, the last named director was again made general manager. The Mt. Vernon Power Co. which began business last June has made a phenomenal success, even surpassing the anticipations of the most optimistic supporters of the enterprise. The stockholders, numbering some twenty odd, were so well pleased with the progress thus far that when the proposition to install a storage battery was presented, the vote was unanimous and by April 1st it is intended that Mt. Vernon shall have continuous service, day and night.

At the Boone Way opera house in the play Kenilworth, one of the characters after writing a note, with a quill pen, was observed to use something like a pepper box to sprinkle something over the sheet. The older people in the audience understood that sand was being scattered thereon to dry up the ink. Blotting pads were unknown in early days.

The Steady Subscriber

How dear to our hearts is the steady subscriber,
Who pays in advance at the birth of each year;
Who lays down the money and does it quite gladly,
And casts round the office a halo of cheer.
He never says: "Stop it; I can not afford it;
I'm getting more journals than now I can read."
But always says: "Send it; all readers like it—
In fact, we all think it help and a need."

How welcome his check when it reaches our sanctum;
How it makes our pulse throb;
How it makes our hearts dance.
We outwardly thank him; we inwardly bless him—
The steady subscriber who pays in advance.

Henry A. Wood, son of Mr. and Mrs. J. J. Wood, passed quietly away Saturday Jan. 30th at his home at Conway. The deceased was twenty three years of age, had been in employee of the L. & N. R. Co., for almost 8 years. He had lived an honest life which should be an example to all who knew him, was every ready to help those in distress, was a cheerful giver to the support of churches, was an efficient Sunday School teacher, and seemed to never tire in his Masters service, had many times expressed a desire to be a minister. For the past two years he had been a sufferer of tuberculosis, had endured various operations and tried different climates, but nothing proved successful. He fully realized his condition, was ready and willing to go at any time.

Deceased was the oldest member of the family, leaving to mourn his loss, his mother, who before her marriage was Miss Ida Jones daughter of Mr. and Mrs. Jas. M. Jones, of Mt. Vernon, two brothers and one sister, who are all at home. The remains were laid to rest Sunday afternoon at the family burying ground near Wildie.

A GENERAL SURVEY OF THE WAR

An uncensored dispatch from Buda Pest says that a new Russian army has invaded Hungary. The new army entered Hungary through the Bukina pass after turning the left wing of the Austro-German forces massed to the northward of the eastern Carpathians. The dispatch states unreservedly that the Russians are advancing unmolested in Hungary.

The Italian war office has ordered the reservists called out to join the colors on Feb. 20.

According to information obtained from diplomatic sources here, Greece has decided to aid Serbia if another Austrian invasion of Serbia is attempted.

A new gigantic Russian army has appeared in East Prussia and is attempting a turning movement designed to compel the retirement of the Germans from the entire province. It has reached Posen, three miles north of Tilsit, an important city in northern East Prussia.

Until the advance of this army was reported by the German staff, its existence was unsuspected. All that had been known of the Russians in this northern region was the slow progress of an invading force fighting its way westward on the line of Pilsken, Gumbinnen and Malwischken, a line twenty-five miles within German territory. The recent activity of this army had indicated a new move on the part of the commander in chief, but the character of the move had been concealed.

The recent destructive raids by German submarines in the Irish sea following bold and extensive operations in the North sea, the channel and off the north coast of Ireland has convinced the British that no waters, no port even, is quite safe from Germany's submarine destroyers. Lloyd's insurance on coastwise traffic jumped at a bound from 5 to 15 per cent. It is reported that a German submarine was observed in the Irish sea, eighteen miles from Liverpool, Monday.

The news that the Russians in East Prussia are advancing on Insterberg from the north and west and are threatening Tilsit with its storehouses of grain, as well as driving the Germans across the Inster, reveals the extent of Russian activity in the most northerly area of fighting. Circling the left flank of the Austro-German forces, and guarding the northern fringe of the eastern Carpathians, a Russian column has marched swiftly through the Bukina pass and is reported to have reached the Hungarian plains.

STORM AT LOS ANGELES

Heavy Damage Results to Property on Pacific Coast.

Los Angeles, Cal. (Special): Rail traffic is paralyzed and much damage has been done to property by a storm that has been raging for twenty-four hours. The heavy rain in Cajon pass, near Los Angeles, put the Santa Fe's double track system through the mountains out of commission and its new line has been buried under a landslide. As far as known no lives have been lost. Los Angeles and Pasadena have been literally deluged with rain.

At Long Beach the high tide swept the amusement district and flooded many stores and residences. Pomona, Azusa, Redondo Beach and various other places are reported damaged.

The report that is being circulated that the town of Livingston would have to build a bridge across Rockcastle river and that Brodhead would have to build the bridge across Dix river, is all bosh, there is no truth in such reports, and it looks like those who want to believe such rot are only looking for some excuse to kick out of harness on the only proposition ever offered to give the county a system of roads. The county builds the bridges and not the towns. Go to the statute and read the law.

GERMAN DYNAMITES U.S.-CANADIAN BRIDGE

Boasts of His Deed As An Act of War.

Montreal, Feb. 3.—The German se-
cret service officer, Werner Van-
Horne, who blew up the Canadian Pa-
cific railroad bridge at Vanceboro and
brags of it, has projected another un-
pleasant international problem into
the somewhat tangled relations be-
tween Great Britain and the United
States.

From a strictly military standpoint
there was nothing to be gained.
Neither troops nor supplies are being
carried over this road through Maine.
But the international possibilities are
many. The bridge is jointly owned by
an American and Canadian company,
the Maine Central and Canadian Pa-
cific. It has one end in the states and
one in Canada.

VanHorne, while careful to dynamite
the Canadian end, was careful also to
cross into American territory after the
crime. He invited instead of avoiding
arrest, and when taken by the United
States authorities not only admitted
his guilt, but supplied evidence of it in
the shape of blueprints and dynamite
caps.

The situation thus created is pecu-
liar. He claims his offense is a legiti-
mate act of war and punishable only
by the enemy as a political crime. If
his contention is correct he cannot be
extradited, nor can he be punished in
the states for an offense committed in
Canada.

Washington, Feb. 3.—State de-
partment officials state they have received
no report of the dynamiting of the
Canadian Pacific-Maine Central rail-
road bridge at St. Croix, Canada.

It is not expected the state de-
partment will be at all brought into the
case until there is a movement for the
extradition of VanHorne.

It is reported that VanHorne claims
to be a German officer. If he can
prove that he is an officer of the Ger-
man army, regularly attached, it is
thought he may be able to claim im-
munity from extradition on the ground
that he did not commit a crime, but an
act of war. In the event that he proves
he is a German officer and claims
to have committed an act of war in at-
tempting to destroy the bridge, it is
presumed the United States authori-
ties would be compelled to intern him
on the ground that he had taken refuge
in neutral territory in order to escape
from the enemy.

OHIO REACHES HIGH STAGE

Pittsburg Is Threatened by Overflow

From Three Rivers.
St. Louis, Feb. 3.—Pittsburg's three
streams, the Allegheny, Monongahela
and Ohio, the two former fed by the
deluge from the stream heads and the
latter by the first two streams, are on a
rampage with their waters reach-
ing a stage of nearly twenty-nine feet.
The flood stage for the Pittsburg terri-
tory is twenty-two feet. The low-
lying sections of the north side are
under from two to four feet of water.
While much property damage is re-
ported, there has been no loss of life.
Eastern Ohio rivers are also on a
rampage, especially the Muskingum,
which is over the banks in many local-
ities. No loss of life is yet reported.

New Academy of Medicine List.
Paris, Feb. 3.—The committee of the
Academy of Medicine has drawn up a
list of candidates for foreign as-
sociate. The Prince of Monaco is
placed first on the list, followed in al-
phabetical order by the names of Dr.
Simon Flexner of New York, director
of the Rockefeller institute for medi-
cal research; Dr. Kitasato of Tokio.
Dr. Perroncio of Turin, and Sir Al-
mroth Wright of London, author of the
system of anti-typhoid inoculation.

IT REALLY DOES RELIEVE RHEU- MATISM

Everybody who is afflicted with
Rheumatism in any form should
by all means keep a bottle of
Sloan's Liniment on hand. The
minute you feel pain or soreness
in a joint or muscle, bathe it with
Sloan's Liniment. Do not rub in
Sloan's penetrates almost immedi-
ately right to the seat of pain, re-
lieving the hot, tender, swollen
feeling and making the part easy
and comfortable. Get a bottle of
Sloan's Liniment for 25 cents of
any drugist and have it in the
house—against Colds, Sore and
Swollen Joints, Lumbago, Sciatica
and like ailments. Your money
back if not satisfied, but it does
give almost instant relief. Buy a
bottle to-day.

RECOGNIZED ADVANTAGES

You will find that Chamberlain's
Cough Remedy has recognized
advantages over most medicines.
In use for coughs and colds. It
does not suppress a cough but
loosens and relieves it. It aids ex-
pectoriation and opens the secre-
tions, which enables the system to
throw off a cold. It counteracts
any tendency of a cold to result
in pneumonia. It contains no
opium or other narcotic, and may
be given to a child as confidently
as to an adult. For sale by all
dealers.

\$100 REWARD, \$100

The readers of this paper will be
pleased to learn that there is at
least one dreaded disease that
science has been able to cure in
all its stages, and that is Catarrh.
Hall's Catarrh Cure is the only
positive cure now known to the
medical fraternity. Catarrh being
a constitutional disease, requires a
constitutional treatment. Hall's
Catarrh Cure is taken internally,
acting directly upon the blood and
mucous surfaces of the system,
thereby destroying the foundation
of the disease, and giving the
patient strength by building up
the constitution and assisting na-
ture in doing its work. The prop-
rietors have so much faith in its
curative powers that they offer
One Hundred Dollars for any case
that it fails to cure. Send for list
of testimonials.

It Always Helps

says Mrs. Sylvania Woods, of Clifton Mills, Ky., in
writing of her experience with Cardui, the woman's
tonic. She says further: "Before I began to use
Cardui, my back and head would hurt so bad, I
thought the pain would kill me. I was hardly able
to do any of my housework. After taking three bottles
of Cardui, I began to feel like a new woman. I soon
gained 35 pounds, and now, I do all my housework,
as well as run a big water mill.

I wish every suffering woman would give

a trial. I still use Cardui when I feel a little bad,
and it always does me good."

Headache, backache, side ache, nervousness,
tired, worn-out feelings, etc., are sure signs of woman-
ly trouble. Signs that you need Cardui, the woman's
tonic. You cannot make a mistake in trying Cardui
for your trouble. It has been helping weak, ailing
women for more than fifty years.
